PETITION TO ACCEPT DRAWINGS

This is a petition to accept drawings that were inadvertently left out from the submission of the instant divisional application to the United States Patent and Trademark Office on July 10, 2003 but were included in the priority cases to which the instant application pertains.

The instant application is a divisional application of serial number 09/804,369 filed March 12, 2001, issued as United States Patent No. 6,630,126, which is based on United States provisional patent application number 60/189,072, filed March 13, 2000, the entire disclosure of which is incorporated by reference.

These priority applications each contain Figures 10I-10P and 11, i.e. the same three drawing sheets Applicants wish entered into the instant application with the

Preliminary Amendment concurrently filed herewith. As the instant application claims benefit of priority to the underlying applications and the disclosure thereof was incorporated by reference into the instant application, Applicants respectfully submit that the drawings were clearly received by the United States Patent and Trademark Office as of the filing date of the instant application. Applicants likewise submit that entry of these two drawing sheets does not constitute the introduction of new matter in contravention of 35 U.S.C. §132.

Should the Office have any questions with respect to the foregoing, please contact Applicants' undersigned counsel.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'R. Chisholm', written over a horizontal line.
